

TAILLIGHT PARTS - These are taillights and parts made to replace the original taillights. Taillight assemblies include 6 volt or 12 volt bulbs or LED, where noted. These lights are used as brake lights and turn signals but not as backup lights. Lenses and brackets sold separately. These are purchased from an outside vendor. For custom billet lights for flat panel areas, see page 76.

GM

STEPSIDE TAILLIGHT PARTS

GM 55-59 LED BULB STYLE

LED Style: Taillights for GM 40-53 and 55-59 Stepsides have the black painted steel housings, stainless rims and red plastic lenses. GM 60-66 have black painted steel housing and red plastic lenses only.
