**BED SIDE HOLE CAPS**

- MAR-K has developed a billet aluminum cap for the curl opening in the end of your Stepside or Flareside bed side.
- A rubber o-ring around the end of the caps helps the caps stay in place.
- Available smooth, with GM bowtie emblem, reflectors or lights.
- Lighted hole caps are available with standard 12-volt lights or super bright 12-volt LEDs.

**Tech Tip:** There are variations in the bed side curls, so we suggest you check the diameter of your curl before ordering. Diameter of hole caps are:

**GM**

34-39 Stepside (fits MAR-K Bed Sides only) .....	1-1/4"
40-66 Stepside .....	1-19/32"
(also fits 40-87 MAR-K Bed Sides)	
67-87 Stepside .....	1-11/16"

**FORD**

51-72 Flareside .....	1-1/4"
80-87 Flareside .....	1-9/32"

**DODGE**

53-85 Stepside .....	1-1/2"

**Differences between LED and Lighted Hole Caps**

**White LED light** includes 12 volt single intensity 19 LED bulb, and 2 pigtail wires. Can be used for backup.

**Red LED light** includes 12 volt dual intensity 19 LED bulb, and 3 pigtail wires. Can be used for running lamp, stop and turn signal.

**Amber LED light** includes 12 volt single intensity 19 LED bulb, and 2 pigtail wires. Can be used for turn signal.

**Red Standard Light** includes red lens and 12 volt light, type 194 miniature single filament bulb. Can be used for turn signal and brake light or running lamp; not all three.

**Amber Standard Light** includes amber lens and 12 volt light, type 194 miniature single filament bulb. Can be used for turn signal.

**PLEASE NOTE!** The lighted hole cap will provide additional lighting at the rear of your truck, but is **not intended to replace your DOT legal taillight/brake light system.**
