

MAR-K

CONTENTS

At **MAR-K** we build our parts for owners and builders who recognize the importance of buying parts that are precision made for accurate fit and long term durability. Our customers understand that a poor quality part ends up being more expensive than one which is made right, especially when costs of installation, modification for proper fit and appearance of the finished job are considered. **MAR-K** customers also want parts that are made in the United States of America by Americans.

MAR-K PARTS AREN'T FOR EVERYONE - JUST THOSE WHO WANT QUALITY PARTS

BED WOOD -

- MAR-K bed wood is premium quality red oak or southern yellow pine.
- It is kiln dried to help prevent warping or cracking.
- Grooved, cut-to-size and ready-to-finish.
- Our inspectors carefully inspect and color match the boards in our wood kits.
- Mounting holes are countersunk and GM and Dodge holes are offset for proper installation. Kits from other companies may not include mounting holes.
- Made in Oklahoma City, USA.*

BED STRIPS AND ANGLE STRIPS -

- Bolt holes punched in the original hole pattern.
- Also available are bed strips with Hidden Bolts in stainless, steel or aluminum.
- Angles available in straight or curved sets depending on what was original for your truck.
- Custom hole patterns and lengths available.
- Made in Oklahoma City, USA.*

FRONT BED PANELS -

- Correct steel gage thickness.
- Accurate bends and dimensions for correct fit.
- Welds that stay welded and look right.
- Made in Oklahoma City, USA.*

TAILGATES -

- Our parts, like our GM 58-66 Fleetside Tailgate with latch and handle mechanism are researched, developed and manufactured at MAR-K in Oklahoma City. It takes months of careful planning and toolmaking to develop a new part.
- Correct steel gage thickness.
- Accurate bends and dimensions for correct fit.
- Welds that stay welded and look right.
- MAR-K tailgates have these details and this results in an excellent quality tailgate!
- Made in Oklahoma City, USA.*

BED SIDES -

- Fender holes are punched in the original pattern.
- Complete bed sides include the stake pockets and steel angle strips welded on for GM; stake pockets and the extension panels welded on for Ford.
- Bed sides available
 - with or without the stake pockets
 - with or without the stake pocket holes
 - with or without fender holes
 - with or without the tailgate latch
- Custom Bed Sides made YOUR way with MAR-K's bed side upgrades. Add polished or unpolished stainless angles to your bed sides. Have tear drops welded onto the curls. There are so many choices!
- Made in Oklahoma City, USA.*

CROSS SILLS AND REAR CROSS SILLS -

- All mounting holes punched and brackets included for your year of truck.
- MAR-K rear cross sills have all holes drilled for wiring harnesses.
- Made in Oklahoma City, USA.*
