

MAR-K™ front bed panels for 67-72 Fleetside are spot welded on this machine. Custom built tools like this help us to make our parts accurately and efficiently.

FRONT PANEL MOUNTING BOLT KITS

Mounting bolt kits, containing the bolts for mounting the front bed panel to the bed sides, are available for GM, Ford and Dodge trucks. These may be 1/4" hex head bolts or 5/16" indented hex head bolts, according to year series.

GM

100302	61-85 SHORT/48-85 LONG THREAD ROD*	16.00 ea

ALL LONG THREADED RODS ARE MADE OF STEEL.

FRONT BED PANELS

- This front portion of the pickup is embossed or smooth like the original and comes with holes for mounting to the bed sides.
- **MAR-K™** front bed panels are manufactured from 16 gage electro-galvanized steel at our facility in Oklahoma City, USA.
- The front bed panels for GM 34-53 come with zinc plated steel hardware and a long threaded rod for mounting. The front panel mounting kits are sold separately for GM 54-87, Ford 51-87 and Dodge 53-85 with options of polished stainless, unpolished stainless or zinc plated steel bolts.

TechTip: The front bed panel is attached to the bed sides and the bed floor. There are some differences in how they bolt to the floors. For instance, the GM 34-46 front bed panel bolts to the bed wood, the GM 47-53 front bed panel bolts to the front cross sill, and the GM 54-87 and early Ford front panels bolt to the bed strips. All Ford 51-87 front bed panels bolt to the front cross sill. The Dodge 48-85 front bed panel mounts to the bed strips.

47-53 GM STEPSIDE

GM

FRONT BED PANEL FLANGES

FORD Repair Flange: This angle may be used to repair the rusted areas along the front bed panel where it meets the floor of the bed.

GM 67-72 Adapter Flange: If you are converting from a steel floor to a wood floor you may need an adapter flange. This is used with the original front bed panel for conversions since the wood floor front bed panel is taller than the panel for the steel floor. This part is welded on the existing panel. If you are buying a new front bed panel from MAR-K™ for your wood floor, you would not need the adapter flange. This can also be used to repair rusted panels.

120102	51-72 FORD SHORT FLARESIDE (STEP)	\$37.00 ea
100625	67-72 GM FLEETSIDE	37.00 ea

LOUVRES - BOWTIE FOR 54-72 GM STEPSIDE

CUSTOM FRONT BED PANELS SMOOTH, LOUVRES, EMBOSSED BOWTIE

MAR-K™ has developed custom front bed panels for your 34-87 GM truck. Custom front panels may be louvered to match your tailgate or left smooth for painting graphics. Also available are front panels embossed with the Chevy bowtie emblem. Don't forget the matching tailgate for a truly custom look. Installation hardware sold separately. See page 40.
